

RELEASE NOTES

Version 5.2.3 | November 2016

UFED CLOUD ANALYZER

HIGHLIGHTS

With 85.5% of agencies reporting that social media has helped solve crimes¹, cloud data proves to be playing a prominent role in investigations, and it is imperative that you have the most up to date tools to access it.

Cellebrite's UFED Cloud Analyzer 5.2.3, provides you with the capabilities to dive deeper into the cloud and extract the data you need to accelerate your investigations.

UFED CLOUD ANALYZER 5.2.3 ENABLES YOU TO:

- Follow your subjects' footsteps with the new "Location accuracy" filter
- Extract the iCloud backup from devices running iOS 10
- Access pictures and videos from Google Photos
- Obtain your subjects' Google calendars
- Gain access to your subjects' tasks lists

FOLLOW YOUR SUBJECTS' FOOTSTEPS WITH THE NEW "LOCATION ACCURACY" FILTER

Identify a subjects' whereabouts, hot spots, routes, and other case critical details using UFED Cloud Analyzer 5.2.3's new Google location accuracy filter. Drill down to your subjects within a particular timeframe, step-by-step, meter-by-meter, in a clear, readable format.

EXTRACT THE iCloud BACKUP FROM DEVICES RUNNING iOS 10

Enhance investigative insights with access to the iCloud backup from devices running iOS 10, even when the phone is locked.

ACCESS PICTURES AND VIDEOS FROM GOOGLE PHOTOS

Since its launch, back in 2015, Google Photos has more than 200 million monthly active users.² Access to Google Photos can provide investigators with critical visual and audio information that may help solve a case. UFED Cloud Analyzer 5.2.3 enables access to subjects' photo, videos, albums, tagging information and locations.

EXTRACT DATA FROM GOOGLE CALENDAR

Keep one step ahead of your subjects with access to their day-to-day activities via their Google Calendar. View meeting times, locations and other subjects.

GAIN ACCESS TO YOUR SUBJECT'S TASKS LISTS

See what your subjects have planned with access to their tasks list from their Google accounts.
