UFED **ULTIMATE**

The Premium All-in-One Mobile Forensic Solution

UFED ULTIMATE

The Premium All-In-One Mobile Forensic Solution

The UFED Ultimate is the complete solution for mobile forensics, combining logical and physical extraction, passcode recovery and file system extraction. The UFED Ultimate supports the widest range of mobile devices including mobile phones, smartphones such as iOS, Android, BlackBerry®, Symbian, Windows Mobile and Palm, portable GPS devices and handheld tablets. It includes the UFED Physical Analyzer – the most powerful, feature-rich extraction and analysis tool, and the UFED Phone Detective for instant mobile phone identification.

At a Glance

- Performs physical, logical, file system extractions and passcode recovery
- Complete data extraction of existing, hidden and deleted phone data, call history, SMS, contacts, email, media files, geotags, passwords and more
- Exclusive physical extraction and decoding for BlackBerry NAND devices running OS 4, 5, 6 and 7
- Android physical and file system extraction that bypasses user/pattern lock and doesn't require rooting
- Physical extraction and password recovery from iPhone/iPad/iPod devices running iOS 3.0+
- Includes UFED Physical Analyzer, the most powerful decoding and analysis tool for mobile forensics
- Unrivalled phone coverage and compatibility

Location and GPS Based Items

- Physical extraction of GPS devices
- Decoding of entered locations, GPS fixes, favorite locations, GPS info
- Recovery of deleted data such as GPS fixes
- Extracts location information (such as Wi-Fi, cell tower and navigation applications) from iPhone and Android devices
- Extracts geotag visualization of location-based data on Google Earth/Google Maps

Also Available in a Ruggedized Edition

UFED Ultimate Ruggedized edition includes a protective rubber casing for improved grip, rugged carrying case, and comes fully equipped with all required accessories such as Faraday bag, phone charger kit, integrated battery with up to five hours operating time, multi card reader and much more.

RUGGEDIZED KIT

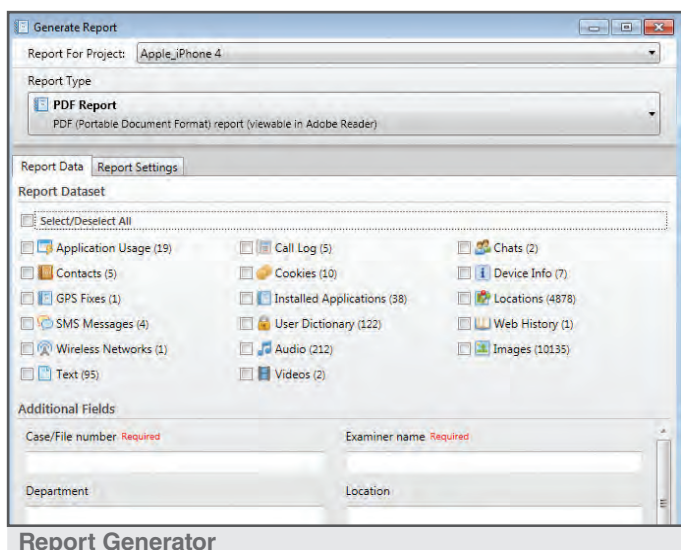

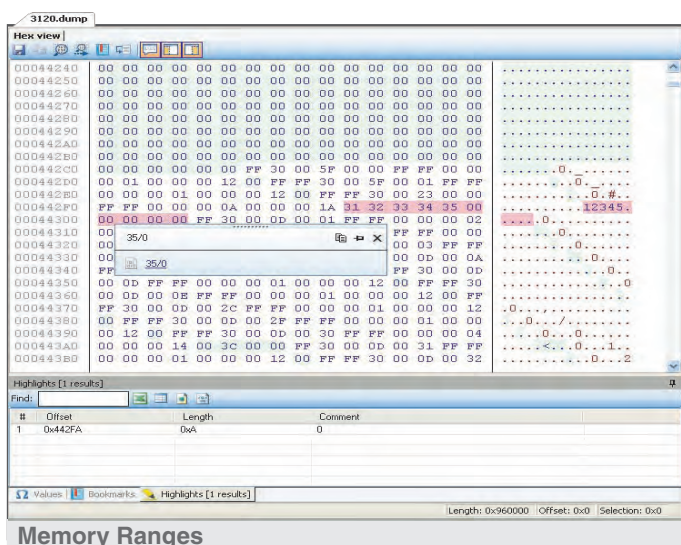

STANDARD KIT

UFED Physical Analyzer

The UFED Physical Analyzer is the most powerful and extensive mobile forensic decoding, analysis and reporting tool there is available to date, exposing every segment of a device's memory data.

In use by law enforcement, military and intelligence agencies around the world, the UFED Physical Analyzer brings the very latest software in mobile forensics analysis, decoding and reporting into an easy-to-use environment.

Features include:

- **Enhanced Decoding** - The most advanced decoding capabilities, enabling support for multiple data types such as: chat, SMS, email, web history, SIM data, cookies, MMS, locations, call logs, contacts and more.
- iOS Physical extraction, real-time decryption including keychain and passcode recovery
- Android physical and file system extraction including recovery of the user pattern lock/PIN
- **Instant Search** - A powerful Instant Search bar, which locates keywords and numbers within the extracted data, device information and file names, anywhere within the UFED Physical Analyzer.
- **Hash Calculation and Verification Function** - The hash calculation function enables users to trigger a verification process which returns the relevant hashes (MD5, SHA256) and compares them against the original hashes provided along with the phone extraction.

Includes the UFED Phone Detective

A software tool provided as part of the UFED Ultimate kit, the UFED Phone Detective helps investigators quickly identify mobile phones vendor and model at the outset of the investigation, eliminating the need to open up the phone and risk phone lock. This is achieved by the user answering up to 8 visual queries relating to the physical attributes of the phone (form factor, brand, size, etc.) or by entering the Type Allocation Code (TAC). The Phone Detective then quickly identifies the phone's make and model.

KIT CONTENTS: UFED Device - Cable Kit - Power Supply - Carrying Bag - Cable Organizer - UFED Report Manager - UFED Physical Analyzer - UFED Phone Detective software - User Manual - Cleaning Brush for Phone Connectors - Bluetooth Dongle - USB Flash Drive - Car Power Adapter - SIM ID Cloning Cards x5 - MicroSIM adapter - UFED Protective Cover* - Ruggedized Carrying Case* - Battery Set* - Phone Charger Set* - Faraday Bag* SIM ID Cloning Cards x 10* - UFED Memory Card Reader*

* Available in Ruggedized edition only

About Cellebrite

Founded in 1999, Cellebrite is a global company known for its technological breakthroughs in the cellular industry. A world leader and authority in mobile data technology, Cellebrite established its mobile forensics division in 2007, introducing a new line of products targeted to the law enforcement sector. Using advanced extraction methods and analysis techniques, Cellebrite's Universal Forensic Extraction Device (UFED) is able to extract and analyze data from thousands of mobile devices, including feature phones, smartphones, portable GPS devices and handheld tablets.

Cellebrite's UFED is the tool of choice for thousands of forensic specialists in law enforcement, military, intelligence, security and government agencies in more than 60 countries.

Cellebrite is a wholly-owned subsidiary of the Sun Corporation, a listed Japanese company (6736/JQ)
